

AI Lead Automation — Technical Documentation and SOP

Document Version: 1.0

Last Updated: July 23, 2026

Prepared By: Judd Vincent Tito

System Status: Prototype / Portfolio Project

1. System purpose

This system captures customer inquiries, validates required information, analyzes valid leads with Google Gemini, assigns priority and ownership, sends notifications, schedules follow-ups, records audit events, and updates an operations dashboard.

2. Applications used

Google Forms

Google Sheets

Make.com

Google Gemini API

Gmail

3. Main lead-processing workflow

Google Form submission

- Watch New Lead
- Validate required information

Valid lead

- Generate Processing ID
- Mark as Processing
- Log Processing Started
- Analyze with Gemini
- Save AI analysis
- Log AI Analysis Completed
- Route by priority
- Send internal notification
- Send customer acknowledgment
- Assign lead owner and follow-up date
- Log Lead Assigned
- Update final status
- Log Processing Completed

Invalid lead

- Generate Invalid Processing ID
- Mark as Needs Review
- Log Validation Failed
- Notify manager
- Assign manager ownership
- Update final status
- Log Processing Completed

Gemini failure

- Mark as Failed
- Record error message
- Assign Automation Administrator
- Log AI Processing Failed
- Send internal failure notification
- Commit

Figure 1. Main lead-processing workflow in Make.com

4. Follow-up reminder workflow

Search lead rows

- Identify overdue follow-ups
- Exclude Closed Won and Closed Lost
- Route normal and invalid leads
- Send owner reminder
- Update Last Reminder Sent
- Record Follow-Up Reminder Sent in Audit Log

Figure 2. Follow-up reminder scenario

Figure 3. Internal follow-up reminder email

Figure 4. Internal Invalid Lead follow-up reminder email

5. Status definitions

Field	Value	Meaning
Main Status	Processing	Automation is working on the lead
Main Status	High Priority — Sales Notified	High-priority route completed
Main Status	Medium Priority — Sales Notified	Medium-priority route completed
Main Status	Low Priority — Nurture	Low-priority route completed
Main Status	Needs Review — Manager Notified	Invalid submission handled
Main Status	Failed	Automation processing failed
Follow-Up Status	Urgent Follow-Up	Immediate owner attention required
Follow-Up Status	Pending	Follow-up has not started
Follow-Up Status	Needs Review	Submission requires manual review
Follow-Up Status	Technical Review	Automation failure requires investigation
Follow-Up Status	Contacted	Owner contacted the lead
Follow-Up Status	Replied	Lead responded

Field	Value	Meaning
Follow-Up Status	Qualified	Lead meets sales requirements
Follow-Up Status	Closed Won	Opportunity became a customer
Follow-Up Status	Closed Lost	Opportunity did not convert
Follow-Up Status	Uncontactable	No usable contact information exists

1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20
Timestamp	Full Name	Email Address	Company or Business	Type of Inquiry	Message	Urgency	Status	AI Category	Customer Need	AI Summary	Buying Intent	Lead Score	AI Priority	Recommended Action	Human Review				
7/17/2028 1:43:37	Maria Santos	[REDACTED]@gmail.com	Santos Travel and Tours	Customer Support Automation	We receive more than 100 booking inquiries every day and have several customers asking for that same answer: how long it takes to get a response and what the pricing is. Please contact us to discuss pricing and implementation.	High	High Priority - Sales Notified	Customer Support Automation	Automated inquiry response and routing system	Santos Travel and Tours needs to automate 100% of their booking inquiries. They are requesting pricing and implementation details this month.	High	95	High	Schedule a discovery call immediately to discuss implementation timeline and pricing packages.	FALSE	20			
7/17/2028 2:19:31	Johnson	[REDACTED]@gmail.com	ABC Services	Workflow Automation	We need help automating our customer inquiry process.	Medium	Medium Priority - Sales Notified	Workflow Automation	Automating customer inquiry processes	Johnson from ABC Services is seeking assistance with automating their company's customer inquiry workflow. The request is straightforward but lacks specific technical details or scope.	Medium	85	Medium	Send an email asking for specific details about their current inquiry process and volume to determine the technical scope.	FALSE	20			
7/17/2028 2:23:58		[REDACTED]@gmail.com	Rapex Digital Marketing	CRM Automation	We are exploring ways to automatically capture leads from our website and save them to our CRM. We are currently comparing possible solutions and would like to learn more about your services.	Medium	Needs Review - Manager Notified												
7/17/2028 2:35:38	Andrea Cruz	[REDACTED]@gmail.com	Cruz Online Shop	General Inquiry	I am interested in learning what types of automation services you offer. I do not have a specific project or timeline yet, but I may consider automation in the future.	Low	Low Priority - Nurture	Educational	General information regarding automation service offerings.	Andrea Cruz from Cruz Online Shop is inquiring about available automation services for potential future use. She has no immediate project or specific timeline.	Low	15	Low	Send an automated nurture email with a service brochure or case studies to keep the business top-of-mind.	FALSE	10			

Figure 6. Main workflow and follow-up statuses

Human Review	Processed AI	Processing ID	Error Message	Sales Notification Sent	Acknowledged (generic) Sent	Lead Owner	Owner Email	Follow-Up Status	Next Follow-Up At	Last Contacted At	Follow-Up Attempts	Follow-Up Notes	Last Reminder Sent

FALSE	7/22/2028 16:00:02	Lead - 5 - 2028-07-22 15:59:56		No	Yes	Nurture Team	jud8Rho27@gmail.com		07-25 16:00:02		0		

Figure 7. Follow-Up Status dropdown options

6. Lead ownership rules

High priority → Senior Sales Representative → follow up in 15 minutes

Medium priority → Sales Representative → follow up in 1 day

Low priority → Nurture Team → follow up in 3 days

Invalid submission → Sales Manager → review in 1 hour

Processing failure → Automation Administrator → Technical Review

7. Audit status standard

Event	Audit Status
Processing Started	Processing
AI Analysis Completed	Complete
Sales Notification Sent	Success
Customer Acknowledgment Sent	Success
Lead Assigned	Success
Validation Failed	Needs Review
Manager Notification Sent	Success
Follow-Up Reminder Sent	Success
AI Processing Failed	Failed
Processing Completed	Completed

Figure 10. Failed-processing audit history

8. Troubleshooting guide

New lead does not run

- Check whether the scenario is enabled or running.
- Confirm the form created a new row.
- Check the Watch New Rows starting position.
- Confirm the Status cell is blank.
- Review the valid and invalid filters.

Gemini returns an error

- Check the Gemini connection and selected model.
- Check API quota or rate-limit errors.
- Confirm the prompt contains mapped lead fields.
- Review the error message stored in Google Sheets.
- Check the failed-processing audit entry.

Incorrect route executes

- Check the AI Priority and Human Review values.
- Review AND/OR grouping in the filters.
- Ensure medium and low routes require Human Review = false.
- Confirm priority route conditions do not overlap.

Duplicate emails are sent

- Check whether the lead already has a Status.
- Confirm duplicate protection is active.
- Review scenario execution history.
- Ensure the same row was not submitted or replayed twice.

Processing ID is missing

- Confirm the ID is created once using Set Variable.
- Map the variable instead of the original blank sheet value.
- Use the same variable in every audit module.

Reminder email has missing information

- Check whether the lead was invalid and skipped Gemini.
- Use the invalid-lead reminder template.
- Use ifempty() for optional form values.
- Do not display AI fields for invalid submissions.

Figure 12. Failed lead record with stored error details

9. Manual sales procedure

1. Open the lead sheet.
2. Review leads assigned to you.
3. Check Follow-Up Status and Next Follow-Up At.
4. Contact the lead.
5. Update Last Contacted At.
6. Increase Follow-Up Attempts.
7. Add notes to Follow-Up Notes.
8. Change Follow-Up Status to Contacted, Replied, Qualified, Closed Won, Closed Lost, or Uncontactable.
9. Do not change the automation's main Status unless correcting an operational error.

Lead Owner	Owner Email	Follow-Up Status	Next Follow-Up At	Last Contacted At	Follow-Up Attempts	Follow-Up Notes	Last Reminder Sent
Senior Sales Representative	[REDACTED]	Urgent Follow-Up	2026-07-21 16:43:28		0		2026-07-21 17:35:57

Figure 13. CRM-style ownership and follow-up fields

10. Security rules

- Never share API keys.
- Never include credentials in screenshots.
- Blur real email addresses before publishing.
- Do not expose internal lead scores to customers.
- Do not allow AI to approve refunds, cancellations, legal decisions, or financial outcomes.
- Do not store unnecessary sensitive customer information in the audit log.

11. System Limitations

- The workflow currently uses Google Sheets as a lightweight CRM rather than a dedicated CRM platform.
- AI classification depends on Gemini API availability and usage limits.
- Follow-Up Status updates are performed manually by the assigned owner.
- The system has been tested with sample data and is not yet deployed with real customer data.
- Email delivery and automation performance depend on connected third-party services.

12. Operations Dashboard

Figure 14. Live AI lead operations dashboard
